

"OUR WEBSITE IS BEING OVERHAULED!"

IMPORTANT ANNOUNCEMENT

We know we've slipped under the radar lately but we haven't been sneaking off to exotic surf locations (although that's never far from our minds) or sitting back resting on our laurels, we've been completely re-structuring our business to deliver you the best products, the best service and the best access possible to our products.

For our customers outside of Australia it has been difficult for us to service them properly from our regional base tucked away in the south-west corner of Western Australia. As a result of this and the company's increasing global presence, the corporate headquarters, manufacturing, distribution and warehousing facilities have been relocated to the Perth metropolitan area.

The last year or so has been pretty tough for the company culminating in the death of one of the founding Directors of the company, David Turriff-Smith at the end of May, 2007 after a long illness.

At the same time we have worked on our product range which we already believed was the best in the market in terms of quality. We are now ready to release our updated range of innovative and re-engineered hardware products - leashes, cords and covers.

To get the product in your hands as quickly and as effectively as possible we restructured our Operations division with long term employee Tim Garstone relocating from Margaret River to Perth. He will have an expanded role as Production and Warehouse Manager which will not only see him oversee the full production process but also have hands on involvement with our agents and retailers to ensure there is a direct link between the manufacturing and sourcing process and the people selling and using our products.

For any product enquiries give Tim a call at Myaree on (+618) 9333 0788.

Margaret River is the birthplace and home of Wet Dreams and is the base for the research and development, design and testing of our products. Although our Head Office is now in Perth to facilitate our global reach, we will always be involved in the Margaret River community and still operate a regional office and Wet Dreams Retail Concept store at Shop 2/149 Bussell Highway, Margaret River.

If you want to have a talk about anything else relating to Wet Dreams the company, please contact Gary Gardner on (+61) 403 601 601 or email gary@wetdreams.com.au , I would love to hear from you.

Sincerely

Gary Gardner
Managing Director
